SMHEC 2010 Sustainability Planning Workshop

Comments/Suggestions:

I felt this was great & helped me become more aware of the topic.

Thank you!

I thought the workshop was fantastic. I look forward to continuing conversation with my panel to identify needs, problems, concerns.

More signs for parking. Loved opp. to do breakout sessions.

Great workshop!

The speeches were a bit too long and the audience began to lose interest, maybe some breaks in between? The organic food was great and I loved the idea. Keep up the great work!

Slightly shorter sessions. Keep working on the organic meal.

Thank you.

Great workshop – gained insight to developing our institution.

Best idea: Gardening classes and school garden at JJC.

This was time very well spent.

Thank you for this engaging, uplifting, useful experience.

Very well organized, stimulating and varied activities.

Very well organized & purposeful –

Loved the location. Beautiful campus and facilities were conducive for sessions. Lunch was light and adequate for workshop.

Very good day, would like to meet/reunite every 6 months.

Split the sessions and discuss what we do & next steps all the way through. Meet again in 6 mo's.

Keep-up the communications lines open.

The workshop needed a fifth group to cover Business & Industry Center & Cont. Ed. to go along with academic operation. Finance students. I would help with that group.

Future group meetings are imperative for the success of the program.

The Objective of Workshop, to provide a guided, interactive planning experience to help each institution identify and develop sustainable actions and activities in support of its overall mission – at a general level – good for now.

Interest expressed in continuing to meet and follow up.

Great to include presidents & admin. Now do this for faculty! More faculty involvement.

Would have liked to have had a workforce development peer group. To meet w/other folks who work with business & industry and how we could learn to be a resource in sustainability for our clients.

Meet as a whole. Semi annually to judge where we are @ & where we are in comparison to our constituents. It would be beneficial to do this semi annually to benchmark.

Follow up workshop in one day!

Great job & learned a lot great to have commitment of college.
